# About Our Materials

## What is Poly Lumber?

Poly Lumber is derived from post-consumer polyethylene bottle wastes such as milk and juice containers. This material is cleaned in a decontamination process to a purity level of over 99% HDPE. It is then compounded into rigid board stock. Unlike composite lumber, poly lumber is constructed of over 90% high density polyethylene and contains no wood fillers, resulting in a product that will last a lifetime.

### Will it fade?

Our Poly Lumber contains UV stabilizer which minimizes material breakdown from prolonged sun and weather exposure; however, red and orange are the most susceptible to fading.

## 10-Year Warranty

Our Poly Lumber Furniture comes with a residential ten year limited warranty covering defects in workmanship, the integrity of the poly lumber material and construction hardware. Minimal color fading is excluded from the warranty. Specific warranty information is available from Meadow Breeze resellers. Ask your sales representative for more details.

## Benefits of Choosing Poly

- Will not grow mildew, crack, split, warp, or rot
- Available in many different colors to match your home or support your favorite sports team
- UV Stabilized – no winter storage required
- Chemical Free
- No painting or staining ever
- Does not absorb water - dries within minutes

## Hardware

We select hardware components for durability, including powder coated, stainless steel, and zinc coated. All screws and bolts are 316 Marine-Grade Stainless Steel.
