SURFACING

Playground surfacing, whether wood or rubber mulch, sand, or other material, is used in playgrounds for impact attenuation. It provides cushioning to reduce the risk of injury from falls and can also help with drainage and maintenance.

Recycled Rubber Mulch

- Exceptional shock absorbency
- Reduced risk of playground injuries
- 12 year color guarantee!
- It will not blow away or wash away in storms
- Reduces bug and rodent infestation and does not attract ants
- Will not decompose or compress
- Weather-Friendly, never freezes
- Always dry and ready to play almost immediately after even the heaviest rain
- Rainproof, does not retain moisture, slipperiness or dirt
- Our mulch is 99.9% steel free
- All our products are proudly made in the USA, and are GSA, ASTM and IPEMA certified.

Wood Mulch

For a traditional play area, we also offer wood mulch. Enjoy a play area like you had when you were a kid!

Beuta Landscaping Edging

Keep your play area neat with our flexible plastic edging that looks similar to natural stone and installs quickly and easily.

Weed Guard

Keep the weeds outside of your play area with our landscaping screen! Our weed guard comes in wide rolls and can be cut to the desired length of your playground site.

FREQUENTLY ASKED QUESTIONS

WHAT IF MY YARD HAS A BIT OF A SLOPE?

We can work with a slope of 12" over 20'. If you have a slope, we will need to dig down/or block up the tower to stabilize it.

WHAT ARE THE COLOR OPTIONS?

For the vinyl on your swing set, you can choose ivory with brown decking, bright white with gray decking, for black with grey decking. Playhouse walls can be white, ivory, red, blue, green, black, gray, brown, sage green, and slate blue. Most swings, slides, and climbers are available in blue, red, gray and green.

DOES CUSTOMIZING COST EXTRA?

No. We love to help families design their own swing set so there is no cost for customizing. The cost only changes as you remove or add components.

HOW EASY IS VINYL TO CLEAN?

Very easy. Just spot-wash as needed with a simple cleaner or give it a power washing.

WHERE DO YOU DELIVER AND INSTALL?

We deliver and install nationwide. Contact our team to learn when we can deliver to you!

WHAT SURFACES CAN THE SWING SET BE INSTALLED ON?

install on grass, sand, gravel, dirt, turf, concrete (assuming you will add playground surfacing), and mulch. We offer several mulch options that can be installed at the same time as the set. (see page 88)
